

RQ2 Cross-resource references

RQ1 Architecture

RQ3 Performance

**1. Problem analysis**

EMF against  
content addressing

**2. Design and build**

persistence layer,  
references, tools

**3. Validation**

tests and example programs

**4. Measurement**

benchmark and case study

List of departures from  
the resource model

Artifact and two Eclipse tools

Evidence of correct  
saves and references

Times, statistics and  
a published dataset
